

The opportunity

Due to the continued growth of our practice and consistently high demand for technology consulting services, we are now recruiting a **Senior Associate (IT Project Management)** in our [Technology Advisory practice](#) in Athens.

We are looking for highly motivated and talented individuals who have a commitment to excellence in client service and are passionate about how technology could be an enabler in our digital world.

What You Will Be Doing

- Manage projects external and internal stakeholders (business and technical teams)
- Develop project charters incl. scope, objectives, project governance, project plan, etc.
- Estimate projects' resourcing needs and develop IT project management plans.
- Coordinate business and technical resources to plan and execute project's activities.
- Coordinate or lead requirements analysis / testing phases.
- Monitor projects through the entire project lifecycle with appropriate KPIs, report and escalate issues when necessary.
- Conduct project's risk assessment and deliver mitigation plans.
- Obtain customer acceptance of project deliverables.
- Participate in Steering committees and project weekly meetings to deliver project status updates.
- Conduct post-implementation reviews and provide lessons learnt.
- Utilise good Project Management practices, techniques, and standards throughout entire project's lifecycle

What we are looking for

- University degree in Computer Science, Engineering or other relevant fields; advanced degrees (MBA or other master's degree) viewed favorably.
- Proven track record and professional experience 3-4 years in IT Project Management, ideally in the financial sector.
- Experience in IT Requirements Analysis/UAT scenarios design/execution would be an asset.

- Clear and concise spoken and written communication style tailored to each specific audience.
- High level of organisational skills and attention to detail
- Ability to work under pressure and meet deadlines
- Exceptional business acumen to understand client demand
- Ability to effectively work with a variety of organizations, management levels, cultures, and personalities.
- Strong interpersonal and verbal communication skill to build sustain relationship with all people at all levels throughout the organization.
- Technical fluency and ability to speak knowledgeably about broad technology, business trends and product details.
- Military obligations fulfilled.

What's in it for you

PwC is all about people, encouraging high performance and quality. At PwC, you will have:

- Continuous training and career development opportunities whilst learning from a wide range of top professionals.
- The chance to handle different projects for big clients.
- Access to a global network of firms and global mobility opportunities.
- Compensation package, life and medical plan, rewards and recognition schemes, flexible working program etc
